

## Parents, Families, and Caregivers!

Hello from your child's / children's Elementary School Counselors, Mrs. Lorson and Mrs. Weiler! We are doing well and we hope that you and your family are staying healthy as well! Here is some important information that we need to share with you at this time:

First and foremost, we want you to know that we are available through email or phone to offer help and support to you and your family during the time that our schools are closed. Please see our contact information below.

We have been working hard to put together a page filled with activities and resources for our elementary students. The activities are considered to be "enrichment", with a special emphasis on topics related to positive ways to cope and stay healthy during our school closure. These activities were written to satisfy state and national standards. Please click [here](#) to access our counseling enrichment activities. ("counseling enrichment activities" will be coming soon!)

We also have a parent resource page (coming soon!) with links to various other helpful websites and resources for parents. (i.e. Teacher websites, PTO, school district, community resources, activities to do with your child, etc.)

Being available to you during this time of school closure means that it is important that you understand that we cannot ensure 100% confidentiality while talking on the phone or communicating through email.

If you have an emergency or crisis, please do not wait to get our help. Even if counselors have office hours (see below) they may be unavailable to assist you at that time. **Please call the local crisis number for assistance at: 570-326-7895 or call 911.**
