

Hello families!

We hope you are all doing well and staying healthy.

As of March 30th, we are suggesting as a resource that your child/children may begin reviewing previously taught skills using some of the programs that we have used in the classroom. All of these activities will be completed electronically. Your child's teacher will be sending your information on what we are using. This will include their username and passwords.

These are the programs we may be using.

Mathseeds- <https://mathseeds.com/launch/info/>

Click the login button. Enter your child's username and password. It should begin them in the testing phase if they have not already completed this. Otherwise it will pick up wherever they left off.

IXL-<https://www.ixl.com/signin>

Click the sign in button. Enter your child's username and password. Click on the link called skill plans. All the skills that your child will need to do are already ready to go for them beginning as week 1 day 1. There are two skills for reading and two skills for math. Skills were assigned Monday through Friday. We have never done this program like this before so bear with us!

Xtramath- <https://xtramath.org/#/home/index>

Click sign in. Enter your child's username and password.

Epic- <https://www.getepic.com/sign-in>

This is a great reading site!

Please continue communicating with your child's teacher in the ways that you have previously done. This has been decided individually by each teacher. Some are using phone calls, email or online sites like Bloomz or Remind. We are free for virtual "office hours" on Mondays, Wednesdays, and Thursdays from 8-3:00. Please reach out to us with any questions you may have, or if you require assistance with any of these activities. Remember this is all new to us too. We are learning and working together.

Thanks for all you do!

First grade teachers
