

## Section: Narratives - Needs Assessment

### Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Section 1 - Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

### Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

The district utilized various methods for inclusion into our summer program for June 2021. Course completion, attendance, behavior, cyber charter success, referrals to counselors, nurses, family request, engagement in academics and extra curricular programs as well as

other environmental at risk tendencies.

**Section: Narratives - Summer School Program Questions**

**Summer School Program Questions:** In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Major Racial and Ethnic Groups	Academic Growth	10	Individualized and small group instruction were provided to identify skill support necessary. Students and families were provided additional resources to enhance learning after the program ended.
Children from Low-Income Families	Academic Growth	50	Individualized and small group instruction were provided to identify skill support necessary. Students and families were provided additional resources to enhance learning after the program ended.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

Small group instruction and individualized instruction will be provided to all during the Summer Skills Program. Reteaching and differentiation will be utilized as necessary. Complimentary texts and other materials will be incorporated as needed. Inquiry based learning projects will

allow discovery and metacognition from one core content area to another.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
15	Internal Provider	Professional Staff

**a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.**

**b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.**

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Pretesting	Once	Students will be pre-tested at the beginning of the next grade to determine the mastery of skills from the prior grade as well as determine the starting point for instruction.

6. How will the LEA engage families in the summer school program?

During the Summer Skills Program of 2021, the district alerted families that the program would be available to those in greatest need based on the number of teaching staff available. Building administrators reached out to families to share the benefits of the program which not only included the academics, but also provided transportation and meals. Families could request their child be allowed into the program and consideration was provided in all cases. We will continue to communicate openly with our families and with the addition of staff be able

to open the program up to more students and hopefully have experiential programs offered as well.
